

Lee Hrycun

for

Teacher Welfare Committee *Representative at Large*

I have been working with students in public schools for over 20 years and am now ready to advocate for change as part of the Teacher Welfare Committee.

- **I have had training in Teacher Welfare Bargaining where I learned how complex and intensive the bargaining process can be**
- **I will bring my 20+ years of experience, passion and determination to the table as we fight to improve our working conditions**

As your Representative I will commit to:

- **Listening to teachers and ensuring their voices are heard**
- **Identify areas of concern that need improvement**
- **Support changes to our collective agreement that benefit us at the Local and Central level**
- **Battle a hostile government that has shown a lack of respect for our profession**

WHEN WE FIGHT, WE WIN.
