## WHAT CAN WE DO

As a teacher, mother, and advocate I work to foster growth in all aspects of my life. I work with my children to ensure they are supported in the ways they need in their education. I work in my classrooms to advocate for students to be given the tools they need to be successful. I plan to work in our local to provide teachers with the tools they need to support their growth and encourage collaboration across all schools and departments. I hope to bring positive change and orient our local towards a prosperous term that provides all teachers the tools to be successful.

Vote for me  
for your new  
DEHR chair. I  
believe I can  
bring the local  
forward with  
learning and  
growth  
opportunities  
to foster  
effective  
relationships.
